

**MECHANICAL FUEL PUMP STRUCTURE  
EDUCATIONAL SYSTEM  
MODEL: - IPC-2700-FP**

The IPC-2700-FP is an educational training system for understanding internal structure and operating principle of mechanical type fuel pump by precisely cross-sectioning components such as suction valve, chamber, diaphragm, return spring, discharge valve, and rocker arm.

Mounted on stainless steel base frame.

Size. 30 x 20 x 15cm (L x W x H)
